New Business:

- Our newest member is John F. Sheridan from Kendall Park, New Jersey. Welcome John.
- Bob Streeter has brought his Challenger I Long Wing to the field. He has been doing some preliminary ground tests with the plane. Unfortunately during one such test he snapped off his nose wheel. With the help of AJ Tools right here on Kennedy Boulevard, the nose wheel has been rebuild and is as good as new. Bob is looking for help with his break set-up. Anyone with info to help Bob out his number is 908-832-4368, he would appreciate the call. Bob will also be getting an updated packet from EAA on registration for both pilot and plane.
- Frank Barton has overcome his RFI problem with his new radio in his Challenger. He built an aluminum box to shield his ignition. Check it out next time your at the field.

Other Business:

- Wayne Choper has passed away. To all those who know Wayne, he will be greatly missed.
- The club is still looking for a small donation. All of the club VHS tapes are now being stored in Frank Barton's hanger. Frank has a TV, but no VCR. If you have an older "working" VCR that is not being used and just taking up space, the club could put it to great use.
